Public Health Bulletin - Pakistan, Week 41, 2026

The **Integrated Disease Surveillance & Response (IDSR) Weekly Public Health Bulletin** is your trusted source for the latest disease trends, outbreak updates, and essential public health information in Pakistan. Published weekly, the bulletin provides **timely, reliable, and evidence-based** information for public health professionals, policymakers, healthcare workers, and the public. It presents key surveillance findings, outbreak investigations, seasonal disease trends, and practical public health recommendations to support informed decision-making and strengthen disease prevention efforts.

The bulletin is developed using verified surveillance data and expert review to ensure its content remains accurate, relevant, and aligned with Pakistan's public health priorities. It also addresses emerging health misinformation by providing factual, science-based information that communities can trust.

This Week's Highlights:

- **Strengthening Public Health Emergency Preparedness: Operationalizing the Rapid Response Team System**
- **Knowledge Hub - Understanding Malaria: A Public Health Priority**

Together, we can strengthen disease surveillance, promote informed action, and build a healthier Pakistan.

By transforming surveillance data into actionable public health intelligence, the IDSR Weekly Public Health Bulletin continues to support evidence-based decision-making and protect communities across Pakistan.

Subscribe to the Weekly Bulletin today!

Stay informed. Stay prepared. Stay healthy.

Sincerely,
